

ARTIST BIO

arlen roper

Arlen has been sharing his art and photography since 2012.

He is the sole proprietor of a residential building design and drafting business. Design has been a part of his life for 30 years, so what you see in his art is a natural spinoff from that business.

He loves buildings, lines, patterns, order, color, and subtle curves.

Arlen also loves cars and watching racing, so sometimes you will see this in his work.

In school he majored in Architecture, which involved many art classes. Additional classes continue from time to time, such as the weekly watercolor group at his church.

He started watercolor painting in the fall of 2012, so he knows he has a lot to learn in this area. Photography has always been a hobby, and he is starting to learn more about capturing the moment in different ways, which he says also creates a great excuse to go on a vacation to Europe!

Arlen prefers order in much of his art and will often wait quite a while to be able to shoot a photo without any people "ruining" the scene.

He says the primary reason for doing all of his art and photography is for the joy found in doing it... and the joy found in sharing it.
