COAL Featured Artist September – Artist Bio

After spending my career in sales management for Fortune 500 companies and a national startup I retired in 2011.

Since then I have been doing what I enjoy most - taking pictures. The learning curve has been a challenge but the rewards are great. As a volunteer I took 1000's of event photo's for church and non- profits.

Since joining C.O.A.L I have concentrated on fine art photos.

When I returned from Vietnam I attended the University of Wisconsin- Milwaukee Fine Arts program.

This background in graphic arts and photography never left me but had been put on hold for many years. The love of art is forever!

I hope you enjoy what I have provided for this show.
